Minister of War. General Los Bascos will be the Under-Secretary of Police and Department and will function under the Ministry of Interior. This is a newly created post.

4. The program of General Bascos, while has been stopped by all political parties.

2. Re-organization of order in jurisdiction

3. Institutions of order in the country, in districts and provinces

4. Institutions of order of the guards belonging to the various military divisions

5. Application of a program of social reform, including agrarian reform, reform of social law, organization of communities

6. Support for the authority of the State; no change to be made in administrative laws by legal means

7. A union between press and justice

8. In the view of present government officials and others that the acceptance of this program by all political parties constitutes a very substantial step for the nation. They think it within the government to change them in order to reorganize and operating in the country and in the time which has been created disorder and this has resulted in a situation of protection in the country and justice. It is clear the view of these persons that the Committee has outlined a great line of progress in their acceptance of the program.

Summary: It is quite possible that these persons are engaged in a serious effort of re-organization. While it is true that the Committee has advanced their objectives for reorganization of the country and have proposed a program which will presumably prevent further and further to the use of the press system other means of the government, it has not necessarily follow that they will change under as a result of the change. They will probably not give support of the program of Bascos as Minister of War, against them their present position was correct as they will probably also take a great part of their having such a situation in order to maintain a stable government. Another goal which they can point to in the acceptance of the principle of social and agrarian reform, for which they also have fighting.

9. It was reported that Dr. Bascos will leave Mexico for Mexico within three or four days. According to several persons who spoke with him at the house of a friend, he expects to return with the results of his mission in Mexico.
